Understanding your child's progress report

This report guide is aimed at giving you a greater understand of your child's report to determine how they are progressing at Burton Borough School both in terms of performance, effort and attendance.

If you have any questions once you have read through this document and your child's report, please contact your child's small school via the email contact form on the school website. If the query is subject specific, please contact the classroom teacher directly.

You will notice that the grading system used for subjects is 9 to 1 and not A* to G. This is due to the fact that GCSEs will no longer be graded A* to G for all GCSEs moving forward but will follow the 9 to 1 grading system.

The chart below from Ofqual (the Office of Examinations and Qualification Regulations) shows where the new 9 to 1 grades 'sit' compared to the old A* to G grades:

Grading new GCSEs from 2017

New grading structure	Current grading structure
9	
8	A*
7	A
6	B
5	B
4	C
3	D
2	E
1	F
1	G
U	U

GOOD PASS (DfE)
5 and above = top of C and above

AWARDING
4 and above = bottom of C and above

As you can see from the chart above, a 'good pass' is a grade 5 or above. A grade 4 is known as a 'standard pass'. Grade 5 will be the new benchmark for schools, whereas it used to be a C grade which is more in line with a grade 4.

Many sixth-forms and colleges will currently accept a grade 4 for their entry requirements (especially in English and Mathematics) although some will only accept a grade 5. You will need to contact your preferred 6th form/college to see what their entrance requirements are for the courses your child wishes to take.

Example report – further details on pages 5 and 6

The new style report looks like this. There is brief guidance here and further guidance on pages 5 and 6. Each box in the diagram is numbered and corresponds to each point on the following pages.

Year 11 Progress 1 Report

Student Name		Attendance	%	No Days Absent		Phase 3 (Behaviour)	
Attendance Guide							
School Name		Good	100-97%	Satisfactory	95-96.9%	Concerning	Less than 95%
Tutor Group		Continued attendance at ...% will result in missing..... days throughout the whole academic year					

Subject	KS4 (Y11) Target Grade	Predicted (Y11) Grade	Current working at grade	Effort	Action needed to improve if concerns identified or if there is subject specific information you need to be aware of	Teacher Initials
Art						
Biology						
BTEC PE						
Business Studies						
Chemistry						
Child Development						
Computing						
DT Food						
DT Product Design						
Drama						
English Language						
English Literature						
French						
Geography						

1. Small School name (Hawkstone/Chetwynd /Aqualate).

2. Number of phase 3 behaviour incidents.

3. Attendance percentages. The school target is 97%. The national average is 95%.

4. The number of school days missed if the current level of attendance is maintained.

5. End of Year 11 target grade. These may have been adjusted from the previous report if not high enough.

6. Predicted grade. This is the grade your child's subject teachers believe your child will achieve in the final exams

7. Current 'working at' grade. This is different to the 'predicted' grades on previous reports.

8. Effort Grade. These are rated 'A' for outstanding effort.

9. This section will only be completed if there is a concern that your child is not making the progress they need to be making at this stage **or** there is subject specific information you need to be aware of.

Further information on the new style progress report

1. **Small School:** Your child's small school name will be inserted here (Chetwynd, Hawkstone or Aqualate). Should you have any general queries regarding your child's report, this is the small school team you should contact using the contact form on the school website. (Subject queries should be directed to your child's classroom teacher).
2. **Phase 3 (behaviour):** The number of phase 3 incidents will be inserted here. This is the number of times your child has had to be removed from class because of their behaviour. These incidents are becoming increasingly rare at Burton Borough School so if there are phase 3 incidents logged here, we would be grateful if you could have a conversation with your child about their conduct in school.
3. **Attendance and Attendance Guide:** This is your child's current attendance. The national average is 95% and our school target is 97%. Attendance at 97% and above is coloured green for good, 95% to 96.9% is amber for satisfactory and anything less than 95% is red. We are aware that due to special circumstances such as major/one-off medical reasons will mean some students may have attendance lower than 95%. Our small school teams will liaise closely with the child and their families to support them under these special circumstances and help wherever possible.
4. This section informs you of your child's current attendance and how many days they will have lost if that level of attendance is maintained. For the vast majority of our students, this will say 0 days missed because their attendance after one half term is 100%.
5. **KS4 (Year 11) Target Grade:** This is the end of Year 11 target set for your child. This target grade is based on 'FFT20 benchmarks' and adjusted accordingly by teachers. Usually, this is where a teacher feels that your child should be challenged more and the FFT20 benchmark is not ambitious enough as your child is gifted in that particular subject. Very rarely will these targets be lowered (only under special circumstances where we believe that the target set will actually be de-motivating for the student).

FFT stands for the 'Fischer Family Trust', a charitable organisation that provides data services to schools and the National Health Service. There are three commonly used benchmarks:

- **FFT50:** These benchmarks show what average progress would look like based on students' prior attainment, month of birth and gender.
- **FFT20:** These benchmarks show what high progress would look like based on students' prior attainment, month of birth and gender. These are aspirational and as we are aiming for more than average, these are the benchmarks we use as a starting point for your child.
- **FFT5:** These benchmarks show what very high progress would look like based on students' prior attainment, month of birth and gender.

These benchmarks are created using information gathered through research from over 13,500 schools across the UK on the likely grades your child will achieve. This does not mean that they cannot surpass these targets if hard work and effort is put into their studies. It is also not a guarantee that they will achieve these grades if they choose not to study hard, revise or attend all lessons.

6. **Predicted Grade:** This is the grade that your child's teachers predict your child will achieve in the Summer GCSE examinations. The 'a, b and c' after each grade or '1, 2 and 3' after each grade determines whether your child is nearly at the next grade, solidly on the grade or only just at that grade. Here are some examples.

For subjects that use the new 9 to 1 grades:

If your child has been predicted a grade 5 in a subject...

- A 5a means they are nearly at a grade 6
- A 5b means they are solidly at a grade 5
- A 5c means they could potentially fall to a grade 4

For subjects that use BTEC or Cambridge National grades:

Grades range from D* to L1P. If your child has been predicted a merit (M) grade in a subject...

- An M1 means they are nearly at a distinction grade
- An M2 means they are solidly at a merit grade
- An M3 means they could potentially fall to a pass grade

For students completing a CiDA qualification in IT:

Grades range from A* to C. If your child has been predicted a B grade in a subject...

- A B1 means they are nearly at an A grade
- An B2 means they are solidly at a B grade
- An B3 means they could potentially fall to a C grade

7. **Current working at grade:** The 'current working at' grade shows the grade your child is currently producing work at. This is not a predicted grade that the teacher believes your child will achieve by the end of Year 11. Teachers have input this grade based on mock examinations and work that your child has completed already. It is expected that throughout Year 11, this grade will increase. However, this grade may also decrease if your child does not revise covered content regularly or does not complete the relevant coursework (where applicable).

After school intervention sessions have started across all departments and it is highly recommended that students attend these. By attending these sessions your child will have a much greater chance of achieving their full potential.

8. **Effort Grade:** This indicates how much effort your child is showing in lessons. The table below shows what each letter means.

A	Outstanding effort. Student shows initiative and works beyond the tasks set in class. Deadlines are always met and homework is completed thoroughly. Presentation of work shows pride.
B	Good effort shown consistently. Student works reliably, completes homework and meets deadlines. Takes care with presentations.
C	Inconsistent effort. Some work is good and completed on time with reasonable care but there are occasional lapses with missed deadlines. There is evidence of incomplete work and/or poor presentation.
D	Poor effort consistently. Work is often incomplete and missed out. There is little care over presentation.

9. **Action needed if concerns identified:** This section will only be completed if your child's teacher is concerned with their progress at this stage. This section will also be filled in if there is subject specific information that families need to be aware of. If you require any further information about a particular subject, please contact the specific subject teacher. If it is a general issue, please contact your child's small school.
